

TEAM BUILDING THROUGH ADVENTURE

This handcrafted service offers six hour sessions of the famous role-playing game "Dungeons & Dragons." Each session promotes **critical thinking**, **cooperation**, and **communication** between a group of 2-8 people.

HOW DOES IT WORK?

Each session involves me, the Game Master (GM), and the players (your employees) interacting in and acting out an imaginary adventure. In these scenarios the players assume the roles of brave adventurers working together to stop evil, acquire wealth, and attain glory. While the GM plays the role of the forces that assist and oppose the players in their quests.

WHAT ARE THE BENEFITS?

Critical Thinking

Players are challenged to invent creative solutions to complex problems using only the tools at their disposal as well as their personal and communal imagination.

Cooperation

No one person can overcome the obstacles presented alone, the players must work together towards a common goal in order to succeed.

Communication

Each session will pose new challenges that the players must work together to overcome. These threats will test the group's ability to adapt to unforeseen problems, and verbally communicate how to approach them.

Comradery

This unique experience will leave your employees feeling accomplished. It will build the foundation for trust and friendship between the participants, and leave a lasting impression.
